

ASCM CONNECT ANNUAL CONFERENCE

September 14-16, 2020 | Virtual

Dear

I am writing to request approval to attend the ASCM CONNECT Virtual conference taking place September 14 -16, 2020. ASCM CONNECT Virtual offers supply chain professionals the opportunity to learn best practices, explore new ways of thinking, and obtain endless ideas to optimize their supply chain performance. This event was specifically designed to allow for participation and access to world-class thought leadership from anywhere in the world.

I would like to attend this conference because I know I will be able to discover trends and techniques that will help me expand my knowledge as well as my professional network allowing me to continue to grow into a supply chain leader within this organization. The three-day event includes educational sessions, networking activities and complimentary access to ASCM CONNECT+, a series of smaller events taking place every two months during the next year presenting an additional 20 hours of content centered on newly emerging best practices, including how to respond to the global pandemic.

I plan to utilize the new insights gained by participating in this event to elevate both my personal and our team's performance.

If you'd like more information, please visit the ASCM CONNECT website at **ascmconnect.org**

Sincerely,
