

# Downloading an Exam Score Report

## *What is an Exam Score Report?*

The exam score report provides a more in-depth analysis of a candidate's exam performance by showing how a candidate scored in each content section of their exam. A digital version of this report is shown on-screen upon completion of an exam and a printed copy of this report is provided to candidates upon completion of their exam when testing at a local test center.

*Note: Pursuant to the [ASCM Privacy Policy](#), the Exam Score Report report is to test takers only.*
